

# Search

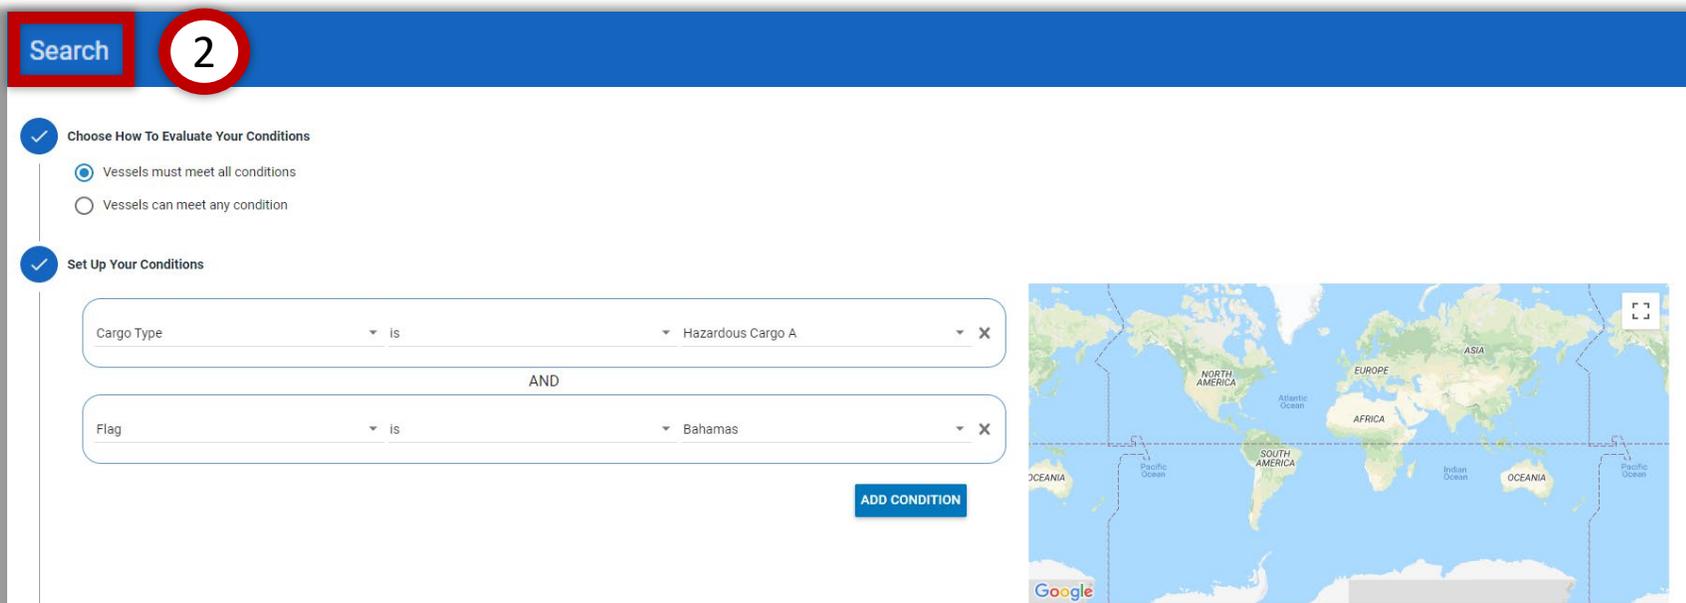

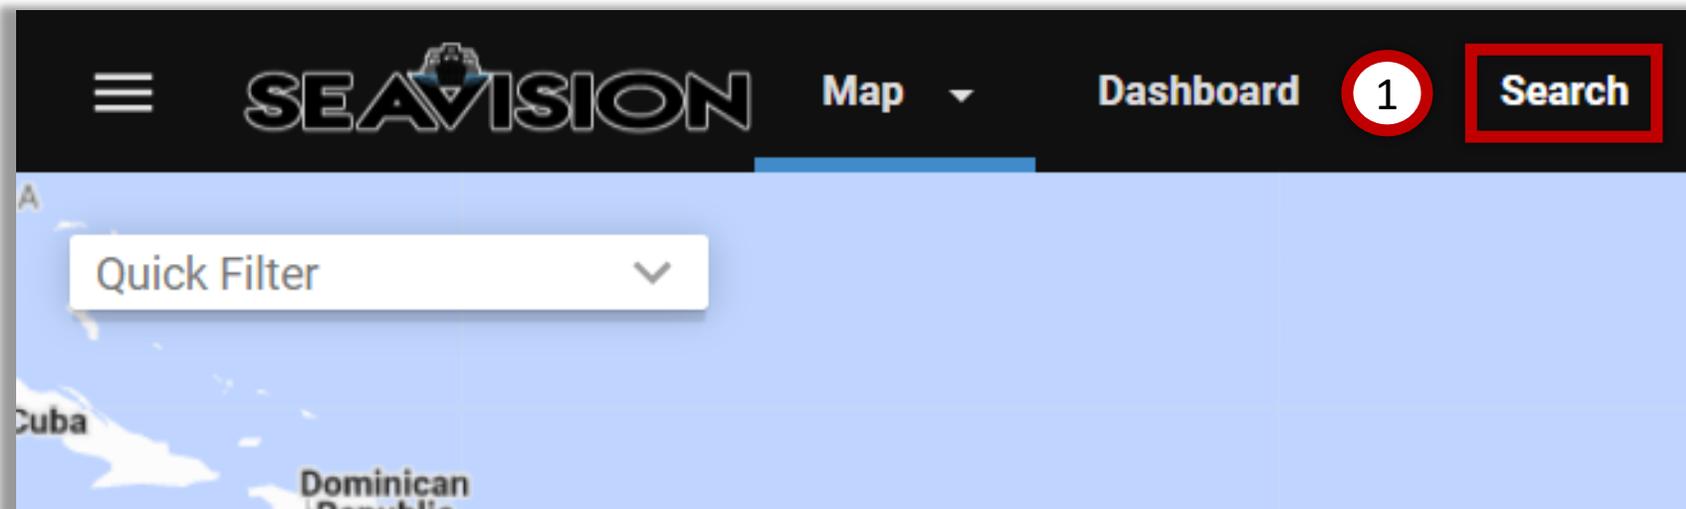

# Learning Objectives

Upon successful completion of this lesson, the student will be able to:

- Access Search
- Explain the features of Search
- Create a Search
- Configure Search Settings
- Manage Saved Searches
- Explain the additional uses of Search Results

# Accessing Search

1. Search
2. Search window

# Search Features

- Search provides the ability to execute an ad-hoc query
- Searches can be saved and shared to a user's Personas and Communities
- Search uses both near real-time data and historical data

Search Results (19 total vessels)

EXPORT ▾ SAVE AS LIST MAP RESULTS

	VESSEL NA... ↑	MMSI	IMO NUMBER	VESSEL TYPE	LATITUDE	LONGITUDE
1	Navios Am...	538002733	9324849	7-Cargo	14.555578	120.922312
2	Anna Smile	538002838	9280770	7-Cargo	12.282467	120.907642
3	Baltic Wolf	538003461	9492335	7-Cargo	11.978077	120.754958
4	Sfl Hudson	538004096	9525821	7-Cargo	11.071083	126.440217

# Creating a Search

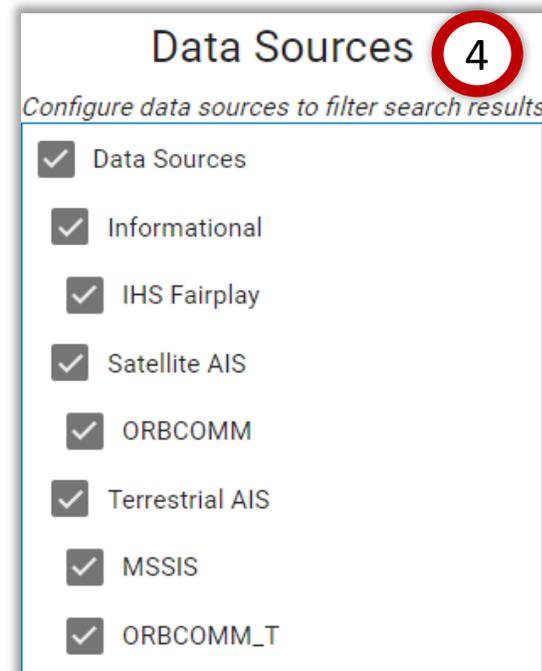

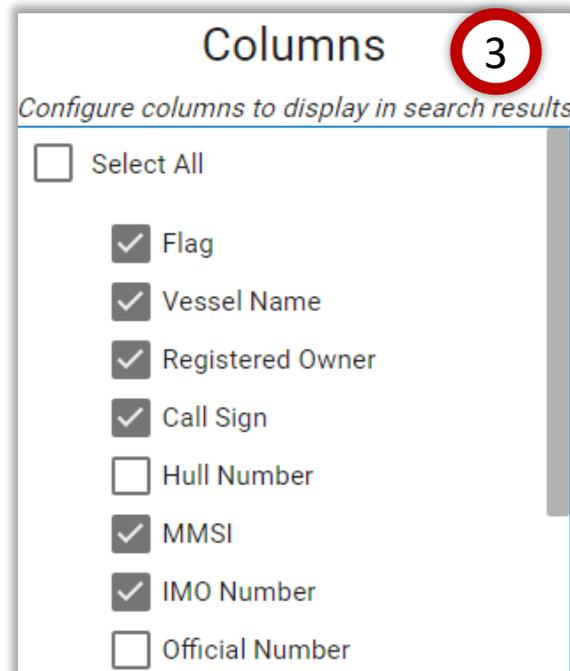

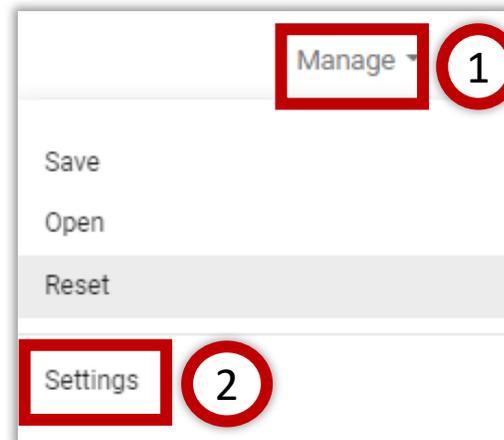

1. Choose How To Evaluate Your Condition
  - Vessels must meet all conditions
  - Vessels can meet any condition
2. Set Up Your Conditions
3. Choose The Time Period To Evaluate
  - Vessel Age (1 Hour–No Maximum)
4. Search

The screenshot shows a search configuration window titled "Search" with a "Manage" dropdown in the top right. A vertical progress indicator on the left side of the window is marked with four red circles containing the numbers 1, 2, 3, and 4. Each number is next to a red-bordered box containing the step title. Step 1 is "Choose How to Evaluate Your Condition" with two radio button options: "Vessels must meet all conditions" (selected) and "Vessels can meet any condition". Step 2 is "Set Up Your Conditions" with a search field containing the placeholder text "Pick a field \*" and an "X" icon. Below the field is a blue "ADD CONDITION" button. Step 3 is "Choose The Time Period To Evaluate" with a slider for "Vessel Age" set to "1 hour" and "No Maximum". Step 4 is "Done!" with a blue "SEARCH" button containing a magnifying glass icon.

# Configuring Search Settings

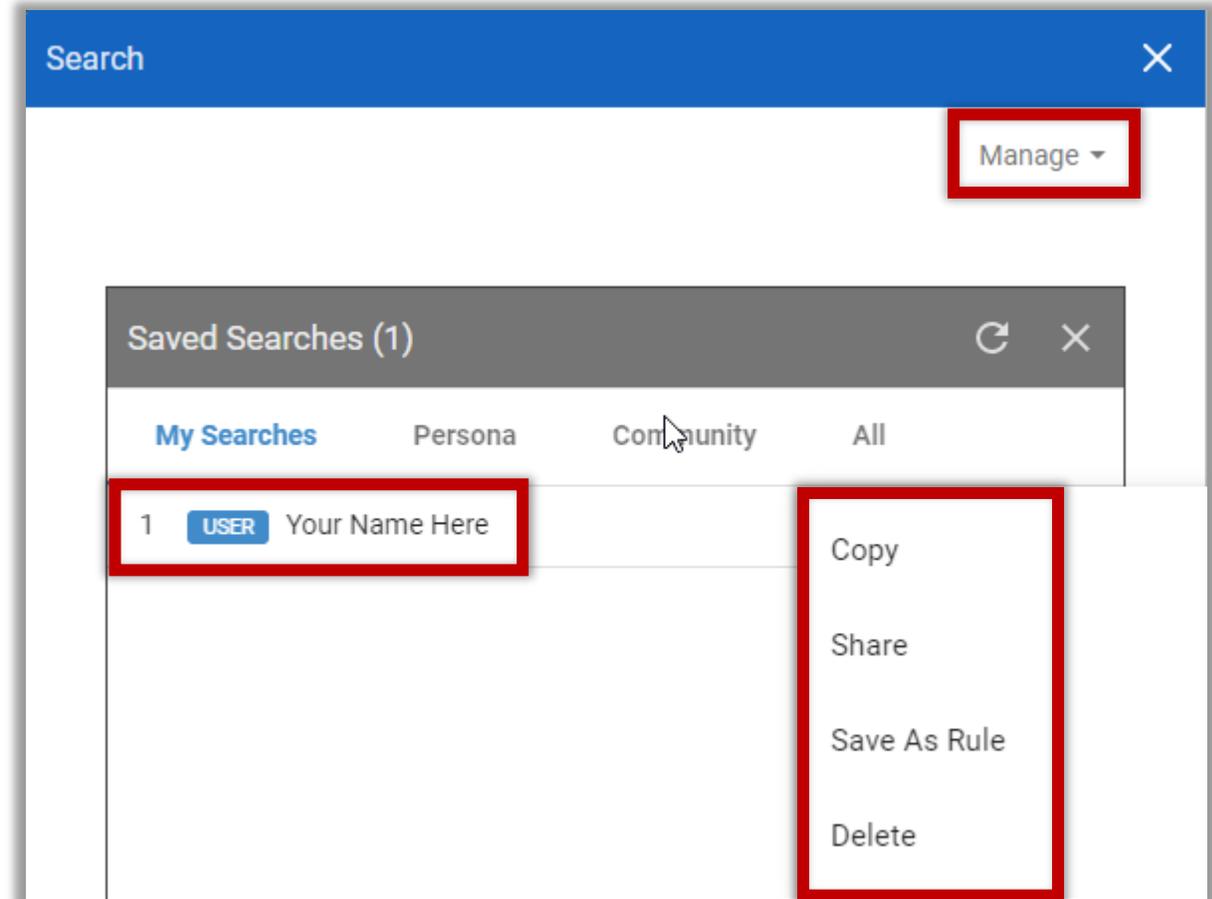

- Users can configure Search Settings before running the Search to customize the results columns and data sources used within the Search

1. Manage
2. Settings
3. Configure columns to display in search results
4. Configure data sources to filter search results

# Managing a Saved Search

- Manage allows the user to:
  - Select a Saved Search
  - Copy
  - Share
  - Save As Rule
  - Delete

# Additional Uses of Search Results

- The following options are available for Search Results:
  - EXPORT
    - JSON
    - CSV
    - XML
    - KML
  - SAVE AS LIST
  - MAP RESULTS

Search Results (19 total vessels)

# Summary

- In this lesson, we covered:
  - Accessing Search
  - The features of Search
  - Creating a Search
  - Configuring Search Settings
  - Managing a Saved Search
  - The additional uses of Search Results
